SCHOOL OF COMMERCE

## VISION

To achieve national recognition in accounting and holistic education with global practices innovations.

# MISSION

Our mission is to provide excellence in accounting and ERP education through teaching and practical work. We recognize our responsibility to provide high-quality education to students who desire to work in business, industry and the not-for-profit sector, to provide an accounting education to students who desire to work in public accounting and to pass the exams or to obtain other professional certification

# ABOUT US

IBS - Best Accounts Training Institute in Malappuram, Kerala. In last 20+ years of incorporation we have been able to transform from just being an account training institute to a full-fledged ERP training institute with technology training as an integral part. We are a leading professional accounts, taxation and allied subjects training institute. Specially concentrated to provide the international accounts courses like SAP R/3, ACCA, IFRS, CMA (USA),. Provide quality education is our moto. We train students and instil them with modern accounting skills so as to make them professional for the corporate world.

# DIRECTORS DESK

We live in a highly competitive world, crammed with many challenges and obstacles. For a commerce student, a college degree is often seen as a stepping stone to a successful career which does not guarantee a high- paying job. So that, as a commerce professional, we need to develop and showcase our skills, knowledge, and value in the marketplace. Definitely CMA (USA) is the fast-paced and competitive field that requires constant learning, innovation, and adaptation which also helps to make the best use of students valuable time within a short term. The glory of this profession and the respect it earns is something dragged me in to this course and we would like to associate with IMA team so that we can assure quality education to the students
